MSBA/MASA Model Policy 516

Orig. 1995

Revised: 3-22-2021

Rev. 2021

516 STUDENT MEDICATION

I. PURPOSE

The purpose of this policy is to set forth the provisions that must be followed when administering nonemergency prescription medication to students at school.

II. GENERAL STATEMENT OF POLICY

The cooperative acknowledges that some students may require prescribed drugs or medication during the school day. The cooperative's licensed school nurse, trained health clerk, or teacher will administer prescribed medications, **except any form of medical cannabis** in accordance with law and cooperative procedures.

III. REQUIREMENTS

- A. The administration of prescription medication or drugs at school requires a completed signed request from the student's parent. An oral request must be reduced to writing within two school days, provided that the cooperative may rely on an oral request until a written request is received.
- B. An "Administering Prescription Medications" form must be completed annually (once per school year) and/or when a change in the prescription or requirements for administration occurs. **Prescription medication as used in this policy does not include any form of medical cannabis as defined in Minn. Stat. 152.22, Subd. 6. Included with this document is permission to contact the prescribing practitioner for a medical order.**
- C. Prescription medication must come to school in the original container labeled for the student by a pharmacist in accordance with law, and must be administered in a manner consistent with the instructions on the label.
- D. **The school nurse may request to receive further information about the prescription, if needed, prior to administration of the substance.**

~~If medication is discontinued school must be notified in writing by the parent. A medical order to discontinue giving the medication at school must be obtained by the parent or school.~~

- ~~E.~~ **D. Prescription medications are not to be carried by the student, and must be left with**

the appropriate cooperative personnel. ~~delivered to the school by a responsible adult and be received by school staff.~~ Exceptions to this requirement are: prescription asthma medications self-administered with an inhaler (See Part J.5. below), and medications administered as noted in a written agreement between the cooperative and the parent or as specified in an IEP (individualized education program), Section 504 plan, or IHP (individual health plan).

- FE.** The school must be notified immediately by the parent or student 18 years old or older in writing of any change in the student's prescription medication administration. A new medical authorization or container label with new pharmacy instructions shall be required immediately as well.
- GF.** For drugs or medicine used by children with a disability, administration may be as provided in the IEP, Section 504 plan or IHP.
- HG.** The cooperative nurse, or other designated person, shall be responsible for the filing of the Administering Prescription Medications form in the health records section of the student file. The cooperative nurse, or other designated person, shall be responsible for providing a copy of such form to the teacher and to other personnel designated to administer the medication.
- IH.** Procedures for administration of drugs and medicine at school and school activities shall be developed in consultation with a cooperative nurse, a licensed cooperative nurse, or a public or private health organization or other appropriate party (if appropriately contracted by the cooperative under Minn. Stat. § 121A.21). The cooperative administration shall submit these procedures and any additional guidelines and procedures necessary to implement this policy to the cooperative board for approval. Upon approval by the cooperative board, such guidelines and procedures shall be an addendum to this policy (~~Appendix A~~).
- J.** If the administration of a drug or medication described in this section requires the cooperative to store the drug or medication, the parent or legal guardian must inform the cooperative if the drug or medication is a controlled substance. For a drug or medication that is not a controlled substance, the request must include a provision designating the cooperative as an authorized entity to transport the drug or medication for the purpose of destruction if any unused drug or medication remains in the possession of cooperative personnel. For a drug or medication that is a controlled substance, the request must specify that the parent or legal guardian is required to retrieve the drug or controlled substance when requested by the cooperative.
- K†.** Specific Exceptions:
 - 1. Special health treatments and health functions such as catheterization, tracheostomy suctioning, and gastrostomy feedings do not constitute administration of drugs and medicine;

2. Emergency health procedures, including emergency administration of drugs and medicine are not subject to this policy;
3. Drugs or medicine provided or administered by a public health agency to prevent or control an illness or a disease outbreak are not governed by this policy;
4. Drugs or medicines used at school in connection with services for which a minor may give effective consent are not governed by this policy;
5. Drugs or medicines that are prescription asthma or reactive airway disease medications can be self-administered by a student with an asthma inhaler if:
 - a. the cooperative has received a written authorization from the pupil's parent permitting the student to self-administer the medication;
 - b. the inhaler is properly labeled for that student; and
 - c. the parent has not requested cooperative personnel to administer the medication to the student.

The parent must submit written authorization for the student to self-administer the medication each school year. In a cooperative that does not have a cooperative nurse or school nursing services, the student's parent or guardian must submit written verification from the prescribing professional which documents that an assessment of the student's knowledge and skills to safely possess and use an asthma inhaler in a school setting has been completed.

If the Cooperative employs a cooperative nurse or provides school nursing services under another arrangement, the cooperative nurse or other appropriate party must assess the student's knowledge and skills to safely possess and use an asthma inhaler in a school setting and enter into the student's school health record a plan to implement safe possession and use of asthma inhalers;

6. Medications:
 - a. that are used off school grounds;
 - b. that are used in connection with athletics or extracurricular activities; or

- c. that are used in connection with activities that occur before or after the regular school day are not governed by this policy.
7. **Nonprescription Medication.** A secondary student may possess and use nonprescription pain relief in a manner consistent with the labeling, if the cooperative has received written authorization from the student's parent or guardian permitting the student to self-administer the medication. The parent or guardian must submit written authorization for the student to self-administer the medication each school year. The cooperative may revoke a student's privilege to possess and use nonprescription pain relievers if the cooperative determines that the student is abusing the privilege. This provision does not apply to the possession or use of any drug or product containing ephedrine or pseudoephedrine as its sole active ingredient or as one of its active ingredients. Except as stated in this paragraph, only prescription medications are governed by this policy.
8. At the start of each school year or at the time a student enrolls in school, whichever is first, a student's parent, school staff, including those responsible for student health care, and the prescribing medical professional must develop and implement an individualized written health plan for a student who is prescribed ~~nonsyringe injectors of~~ epinephrine **auto-injectors** that enables the student to:
 - a. possess ~~nonsyringe injectors of~~ epinephrine **auto-injectors**; or
 - b. if the parent and prescribing medical professional determine the student is unable to possess the epinephrine, have immediate access to ~~nonsyringe injectors of~~ epinephrine **auto-injectors** in close proximity to the student at all times during the instructional day.

The plan must designate the cooperative staff responsible for implementing the student's health plan, including recognizing anaphylaxis and administering nonsyringe injectors of epinephrine when required, consistent with state law. This health plan may be included in a student's § 504 plan.

- L.** "Parent" for students 18 years old or older is the student.
- M.** Districts and schools may obtain and possess epinephrine auto-injectors to be maintained and administered by school personnel to a student or other individual if, in good faith, it is determined that person is experiencing anaphylaxis regardless of whether the student or other individual has a prescription for an epinephrine auto-injector. The administration of an epinephrine auto-injector in accordance with this section is not the practice of medicine.

A district or school may enter into arrangements with manufacturers of epinephrine auto-injectors to obtain epinephrine auto-injectors at fair-market, free, or reduced prices. A third party, other than a manufacturer or supplier, may pay for a school's supply of epinephrine auto-injectors.

N. Procedure regarding unclaimed drugs or medications.

1. The school district has adopted the following procedure for the collection and transport of any unclaimed or abandoned prescription drugs or medications remaining in the possession of school personnel in accordance with this policy. Before the transportation of any prescription drug or medication under this policy, the school district shall make a reasonable attempt to return the unused prescription drug or medication to the student's parent or legal guardian. Transportation of unclaimed or unused prescription drugs or medications will occur at least annually, but may occur more frequently at the discretion of the school district.
2. If the unclaimed or abandoned prescription drug is not a controlled substance as defined under Minnesota Statutes § 152.01, subdivision 4, or is an over-the-counter medication, the school district will either designate an individual who shall be responsible for transporting the drug or medication to a designated drop-off box or collection site or request that a law enforcement agency transport the drug or medication to a drop-off box or collection site on behalf of the school district.
3. If the unclaimed or abandoned prescription drug is a controlled substance as defined in Minnesota Statutes § 152.01, subdivision 4, the school district or school personnel is prohibited from transporting the prescription drug to a drop-off box or collection site for prescription drugs identified under this paragraph. The school district must request that a law enforcement agency transport the prescription drug or medication to a collection bin that complies with Drug Enforcement Agency regulations, or if a site is not available, under the agency's procedure for transporting drugs.

532 USE OF PEACE OFFICERS AND CRISIS TEAMS TO REMOVE STUDENTS WITH IEPs FROM SCHOOL GROUNDS

I. PURPOSE

The purpose of this policy is to describe the appropriate use of peace officers and crisis teams to remove, if necessary, a student with an individualized education program (IEP) from school grounds.

II. GENERAL STATEMENT OF POLICY

The cooperative is committed to promoting learning environments that are safe for all members of the school community. It further believes that students are the first priority and that they should be reasonably protected from physical or emotional harm at all school locations and during all school activities.

In general, all students, including those with IEPs, are subject to the terms of the cooperative's discipline policy. Building level administrators have the leadership responsibility to maintain a safe, secure, and orderly educational environment within which learning can occur. Corrective action to discipline a student and/or modify a student's behavior will be taken by staff when a student's behavior violates the cooperative's discipline policy.

If a student with an IEP engages in conduct which, in the judgment of cooperative personnel, endangers or may endanger the health, safety, or property of the student, other students, staff members, or school property, that student may be removed from school grounds in accordance with this policy.

III. DEFINITIONS

For purposes of this policy, the following terms have the meaning given them in this section:

- A. "Student with an IEP" or "the student" means a student who is eligible to receive special education and related services pursuant to the terms of an IEP or an individual interagency intervention plan (IIP).
- B. "Peace officer" means an employee or an elected or appointed official of a political subdivision or law enforcement agency who is licensed by the Board of Peace Officer Standards and Training, charged with the prevention and detection

of crime and the enforcement of general criminal laws of the state and who has the full power of arrest. The term “peace officer” includes a person who serves as a sheriff, a deputy sheriff, a police officer, or a state patrol trooper.

- C. “Police liaison officer” is a peace officer who, pursuant to an agreement between the cooperative and a political subdivision or law enforcement agency, is assigned to a school building for all or a portion of the school day to provide law enforcement assistance and support to the building administration and to promote school safety, security, and positive relationships with students.
- D. “Crisis team” means a group of persons, which may include teachers and non-teaching school personnel, selected by the building administrator in each school building who have received crisis intervention training and are responsible for becoming actively involved with resolving crises. The building administrator or designee shall serve as the leader of the crisis team.
- E. The phrase “remove the student from school grounds” is the act of securing the person of a student with an IEP and escorting that student from the school building or school activity at which the student with an IEP is located.
- F. “Emergency” means a situation where immediate intervention is needed to protect a child or other individual from physical injury.
- G. All other terms and phrases used in this policy shall be defined in accordance with applicable state and federal law or ordinary and customary usage.

IV. REMOVAL OF STUDENTS WITH IEPs FROM SCHOOL GROUNDS

A. Removal By Crisis Team

If the behavior of a student with an IEP escalates to the point where the student’s behavior endangers or may endanger the health, safety, or property of the student, other students, staff members, or school property, the school building’s crisis team may be summoned. The crisis team may attempt to de-escalate the student’s behavior by means including, but not limited to, those described in the student’s IEP and/or behavior intervention plan. When such measures fail, or when the crisis team determines that the student’s behavior continues to endanger or may endanger the health, safety, or property of the student, other students, staff members, or school property, the crisis team may remove the student from school grounds.

If the student’s behavior cannot be safely managed, cooperative personnel may immediately request assistance from the police liaison officer or a peace officer.

B. Removal By Police Liaison Officer or Peace Officer

If a student with an IEP engages in conduct which endangers or may endanger the health, safety, or property of the student, other students, staff members, or cooperative property, the school building's crisis team, building administrator, or the building administrator's designee, may request that the police liaison officer or a peace officer remove the student from school grounds.

If a student with an IEP is restrained or removed from a classroom, school building, or school grounds by a peace officer at the request of a school administrator or school staff person during the school day twice in a 30-day period, the student's IEP team must meet to determine if the student's IEP is adequate or if additional evaluation is needed.

Whether or not a student with an IEP engages in conduct which endangers or may endanger the health, safety, or property of the student, other students, staff members, or school property, cooperative personnel may report a crime committed by a student with an IEP to appropriate authorities. If the cooperative reports a crime committed by a student with an IEP, cooperative personnel shall transmit copies of the special education and disciplinary records of the student for consideration by appropriate authorities to whom it reports the crime, to the extent that the transmission is permitted by the Family Education Rights and Privacy Act (FERPA), the Minnesota Government Data Practices Act, and cooperative's policy, Protection and Privacy of Pupil Records.

The fact that a student with an IEP is covered by special education law does not prevent state law enforcement and judicial authorities from exercising their responsibilities with regard to the application of federal and state law to crimes committed by a student with an IEP.

C. Reasonable Force Permitted

In removing a student with an IEP from school grounds, a building administrator, other crisis team members, or the police liaison officer or other agents of the cooperative, whether or not members of a crisis team, may use reasonable force when it is necessary under the circumstances to correct or restrain a student or prevent bodily harm or death to another.

In removing a student with an IEP from school grounds, police liaison officers and cooperative personnel are further prohibited from engaging in the following conduct:

1. Corporal punishment prohibited by Minn. Stat. § 121A.58;
2. Requiring a child to assume and maintain a specified physical position, activity, or posture that induces physical pain;
3. Totally or partially restricting a child's senses as punishment;

4. Denying or restricting a child's access to equipment and devices such as walkers, wheel chairs, hearing aids, and communication boards that facilitate the child's functioning except when temporarily removing the equipment or device is needed to prevent injury to the child or others or serious damage to the equipment or device, in which case the equipment or device shall be returned to the child as soon as possible;
5. Interacting with a child in a manner that constitutes sexual abuse, neglect, or physical abuse under Minn. Stat. § 626.556;
6. Physical holding (as defined in Minn. Stat. § 125A.0941) that restricts or impairs a child's ability to breathe, restricts or impairs a child's ability to communicate distress, places pressure or weight on a child's head, throat, neck, chest, lungs, sternum, diaphragm, back, or abdomen, or results in straddling a child's torso;
7. Withholding regularly scheduled meals or water; and/or
8. Denying a child access to toilet facilities.

D. Parental Notification

The building administrator or designee shall make reasonable efforts to notify the student's parent or guardian of the student's removal from school grounds as soon as possible following the removal.

E. Continued Removals; Review of IEP

Continued and repeated use of the removal process described herein must be reviewed in the development of the individual student's IEP or IIP.

F. Effect of Policy in an Emergency; Use of Restrictive Procedures

A student with an IEP may be removed in accordance with this policy regardless of whether the student's conduct would create an emergency.

If the cooperative seeks to remove a student with an IEP from school grounds under this policy due to behaviors that constitute an emergency and the student's IEP, IIP, or behavior intervention plan authorizes the use of one or more restrictive procedures, the crisis team may employ those restrictive procedures, in addition to any reasonable force that may be necessary, to facilitate the student's removal from school grounds, as long as the crisis team members who are implementing the restrictive procedures have received the training required by Minn. Stat § 125A.0942, Subd. 5, and otherwise comply with the requirements of § 125A.0942.

G. Reporting to the Minnesota Department of Education (MDE)

Annually, stakeholders may recommend, as necessary, to the Commissioner of MDE (Commissioner) specific and measurable implementation and outcome goals for reducing the use of restrictive procedures. The Commissioner must submit to the Legislature a report on the cooperative's progress in reducing the use of restrictive procedures that recommends how to further reduce these procedures and eliminate the use of ~~seclusion/prone restraints~~. By ~~January 15, April 15, July 15, and October 15~~~~June 30~~ of each year, districts must report ~~summary data on the use of restrictive procedures to the MDE~~, in a form and manner determined by the Commissioner, ~~about individual students who have been secluded~~. By July 15 each year, the cooperative must report summary data. The summary data must include information on the use of restrictive procedures, ~~for the prior school year, July 1 through June 30~~, including the use of reasonable force by school personnel that is consistent with the definition of physical holding or seclusion of a child with a disability.
