Schools are required to invite transition-age students to participate in an Individualized Education Program (IEP) team meeting when transition planning or postsecondary goals will be discussed. Does your child understand their role in IEP meetings? What does “transition” planning mean?

This interactive webinar is for Minnesota parents of students with IEPs in 8th grade or above. Participants will learn how their children can use their IEP to support the transition to adulthood. Participants will also learn how each required part of the IEP can be developed to meet the student’s transition needs. Parents should have their child’s current IEP available at the webinar.
