I. PURPOSE

The purpose of this policy is to focus public education strategies on a process that promotes higher academic achievement for all students and ensures broad-based community participation in decisions regarding implementation of the Minnesota K-12 Academic Standards and federal law.

II. GENERAL STATEMENT OF POLICY

Implementation of the Minnesota K-12 Academic Standards and federal law requires accountability for the cooperative. The cooperative established a system to transition to the graduation requirements of the Minnesota K-12 Academic Standards. The cooperative also established a system to review and improve instruction, curriculum, and assessment which will include substantial input by students, parents or guardians, and local community members. The cooperative will be accountable to the public.

III. DEFINITIONS

A. “Credit” means a student’s successful completion of an academic year of study or a student’s mastery of the applicable subject matter, as determined by the cooperative.

B. “World’s best workforce” means striving to: meet school readiness goals;; close the academic achievement gap among all racial and ethnic groups of students and between students living in poverty and students not living in poverty; have all students attain career and college readiness before graduating from high school; and have all students graduate from high school.

IV. ESTABLISHMENT OF GOALS; IMPLEMENTATION; AND EVALUATION

A. Cooperative Goals

1. The cooperative board has established cooperative goals that provide broad direction for the cooperative. Incorporated in these goals are the graduation and education standards contained in the Minnesota K-12 Academic Standards and federal law. The broad goals shall be reviewed annually and approved by the cooperative board. The cooperative board shall adopt

annual goals based on the recommendations of the Cooperative's Advisory Committee.

2. The Cooperative Advisory Committee created under Policy 603 (Curriculum Development) is established by the cooperative board to ensure active community participation in all phases of planning and improving the instruction and curriculum affecting state and cooperative academic standards.
3. The cooperative-wide improvement goals should address recommendations identified through the Cooperative Advisory Committee process. The cooperative's goal setting process will include consideration of individual site goals. Cooperative goals may also be developed through an education effectiveness program, an evaluation of student progress committee, or through some other locally determined process.

B. System for Reviewing All Instruction and Curriculum. Incorporated in the process will be analysis of the cooperative's progress toward implementation of the Minnesota K-12 Academic Standards. Instruction and curriculum shall be reviewed and evaluated by taking into account strategies and best practices, student outcomes, principal evaluations under Minnesota Statutes section 123B.147, Subd. 3, and teacher evaluations under Minnesota Statutes section 122A.40 or 122A.41.

C. Implementation of Graduation Requirements

1. The Cooperative Advisory Committee shall also advise the cooperative board on implementation of the state and local graduation requirements, including K-12 curriculum, assessment, student learning opportunities, and other related issues. Recommendations of the Cooperative Advisory Committee shall be published annually to the community. The cooperative board shall receive public input and comment and shall adopt or update this policy at least annually.
2. The cooperative board shall annually review and determine if student achievement levels at each site meet federal expectations. If the cooperative board determines that student achievement levels at a school site do not meet federal expectations and the site has not made adequate yearly progress for two consecutive school years, the Cooperative Advisory Committee shall work with the school site to adopt a plan to raise student achievement levels to meet federal expectations. The Advisory Committee may seek assistance from the Commissioner of the Minnesota Department of Education (MDE) (Commissioner) in developing a plan which must include parental involvement components.
3. The educational assessment system component utilized by the cooperative board to measure individual students' educational progress must be based,

to the extent annual tests are administered, on indicators of current achievement that show growth relative to an individual student's prior achievement. Indicators of achievement and prior achievement must be based on highly reliable statewide or districtwide assessments. The cooperative board will utilize models developed by the Commissioner for measuring individual student progress. The cooperative board must coordinate with MDE in evaluating school sites and continuous improvement plans, consistent with best practices.
