616 SCHOOL DISTRICT SYSTEM ACCOUNTABILITY

I. PURPOSE

The purpose of this policy is to focus public education strategies on a process which promotes higher academic achievement for all students and ensures broad-based community participation in decisions regarding the implementation of the Minnesota Academic Standards and federal law.

II. GENERAL STATEMENT OF POLICY

Implementation of the Minnesota Academic Standards and federal law will require a new level of accountability for the cooperative. The cooperative will establish a system to transition to the graduation requirements of the Minnesota Academic Standards. The cooperative also will establish a system to review and improve instruction, curriculum, and assessment which will include substantial input by students, parents or guardians, and local community members. The cooperative will be accountable to the public and the state through annual reporting.

III. DEFINITIONS

- A. “Credit” means a student’s successful completion of an academic year of study or a student’s mastery of the applicable subject matter, as determined by the cooperative.
- B. “Graduation Standards” means the credit requirements and locally adopted content standards or Minnesota Academic Standards that the cooperative must offer and certify that students complete to be eligible for a high school diploma.
- C. “World’s best workforce” means striving to: meet school readiness goals; have all third grade students achieve grade-level literacy; close the academic achievement gap among all racial and ethnic groups of students and between students living in poverty and students not living in poverty; have all students attain career and college readiness before graduating from high school; and have all students graduate from high school.

IV. ESTABLISHMENT OF GOALS; IMPLEMENTATION; EVALUATION AND REPORTING

- A. Cooperative Goals

1. The school board has established cooperative goals which provide broad direction for the cooperative. Incorporated in these goals are the graduation and education standards contained in the Minnesota Academic Standards and federal law. The broad goals shall be reviewed annually and approved by the school board. The school board shall adopt annual goals based on the recommendations of the Advisory Committee for Comprehensive Continuous Improvement of Student Achievement (Advisory Committee).
 2. The improvement goals should address recommendations identified through the Advisory Committee process. The cooperative's goal setting process will include consideration of individual site goals. Cooperative goals may be developed through an education effectiveness program, an evaluation of student progress committee, or through some other locally determined process.
- B. System for Reviewing All Instruction and Curriculum. Incorporated in the process will be analysis of the cooperative's progress toward implementation of the Minnesota Academic Standards. Instruction and curriculum shall be reviewed and evaluated by taking into account strategies and best practices, student outcomes, principal evaluations under Minn. Stat. § 123B.147, Subd. 3, and teacher evaluations under Minn. Stat. § 122A.40, Subd. 8, or 122A.41, Subd. 5.
- C. Implementation of Graduation Requirements
1. The school board shall appoint a Graduation Standards Implementation Committee which shall advise the school board on implementation of the state and local graduation requirements, including K-12 curriculum, assessment, student learning opportunities, and other related issues. Recommendations of this committee shall be published annually to the community. The school board shall receive public input and comment and shall adopt or update this policy at least annually. The Graduation Standards Implementation Committee will be comprised of the Advisory Committee for Comprehensive Continuous Improvement of Student Achievement.
 2. The school board shall annually review and determine if student achievement levels at each school site meet federal expectations. If the school board determines that student achievement levels at a school site do not meet federal expectations and the site has not made adequate yearly progress for two consecutive school years, the Graduation Standards Implementation Committee shall work with the school site to adopt a plan to raise student achievement levels to meet federal expectations. The Graduation Standards Implementation Committee may seek assistance from the Commissioner of the Minnesota Department of Education (MDE) (Commissioner) in developing a plan which must include parental

involvement components.

3. The educational assessment system component utilized by the school board to measure individual students' educational progress must be based, to the extent annual tests are administered, on indicators of achievement growth that show an individual student's prior achievement. Indicators of achievement and prior achievement must be based on highly reliable statewide or districtwide assessments. The school board will utilize models developed by the Commissioner for measuring individual student progress. The school board must coordinate with MDE in evaluating school sites and continuous improvement plans, consistent with best practices.
